

# modes complete

**Modes Complete** is an *affordable* and *reliable* collection management system designed for museums and collections of all sizes. This program offers a flexible framework for the entry, updating and effective use of your collection information. Modes Complete can be setup to work in a multi-user environment or as a standalone setup.

The program offers many **new** and **enhanced** features:

- ✓ **Multi-user system also available as a standalone solution.**
- ✓ **Clear customisable interface.**
- ✓ **Validation including termlist control and spell checking.**
- ✓ **Drag and drop multimedia attachment and metadata capture.**
- ✓ **Automatic backup, full / incremental.**
- ✓ **Outputs including Entry Form, Accessions Register, Movement Card, barcodes and labels.**

**Modes Complete** can be installed as either a multi-user or single-user program. Installed as a multi-user program it allows an unlimited number of users to share a data file over a network.

**Modes Complete** comes with pre-defined settings, or you can create your own templates, outputs, reports, indexes, termlists and validation controls.

- ✓ **Modes Complete is a SPECTRUM Compliant system and support all SPECTRUM procedures.**
- ✓ **Suitable for 32-bit and 64-bit versions of Windows XP, Vista or Windows 7.**
- ✓ **Password protected user accounts with five levels of access.**
- ✓ **XML data structure.**
- ✓ **Data can be imported as XML and exported a XML, CSV, HTML and PDF.**

# modes complete

## How do the versions compare?

	Modes Complete (networked)	Modes Complete (single user)	Modes Compact
